EXPERIENCE

ADMIN & DATA ANALYST

2020 - 2025

CIMB Niaga – Bintaro

- Managed and analyzed 1,000+ customer datasets to support data-driven decision-making and reporting
- Analyzed nationwide collectors' performance, identifying trends and improvement opportunities
- Developed dashboards and automated reports using VBA, improving efficiency and reducing manual work
- Monitored staff data (973 employees) and ensured accurate tracking of attendance and movement
- Delivered high-volume outputs, including 500+ daily customer settlement confirmations with high accuracy
- Achieved monthly collection targets of IDR 600 million while supporting financial operations
- Created data-driven presentations to communicate insights and support strategic decisions

NOC (NETWORK OPERATION CENTER)

2025 - 2026

BAKTI KOMINFO – Centenial Tower

- Monitored telecommunications networks 24/7 to ensure high availability and optimal performance
- Managed incident tickets, tracking progress from identification to resolution (in progress, resolved, and down sites)
- Analyzed network data to identify affected sites, issue types, and performance trends
- Delivered reports and insights to management on network status and operational performance
- Collaborated with field teams to ensure timely issue resolution in line with SLA standards
